

# BEAST TOPO

\*\*Problems 1-4 share same low sit start

1. Milky Wimpshake (v2)\*\* - from sit start, move straight up
2. Beastly Scurry (v1)\*\* - move up to first sloper, then move left along sloping rail, go up when you reach two huge pockets
3. Quivering Beast (v3)\*\* - stay under roof, climb roof/lip all the way to two large pockets just above lip. From pockets, go up.
4. Righteous Beast (v6+)\*\* - same as 3, but keep moving out to sloping arete, make difficult and long moves along arete to jugs at lip. Super classic.
5. Nautilus (v3)\*\* - in cave below topout of 4, sit start on R undercling, L gaston, make long powerful moves through good pockets
